

Your Opinion

Tell us your opinion about the names of the PAC World issues during the year.

The seasons around the globe: spring / summer / autumn / winter

Should we use the seasons?

This is the question we asked on the PAC World web site three months ago. We wanted to hear your opinion about the way we label the individual issues within the year. You had to choose from the following options:

■ Use the month when the magazine is mailed – (example March, June...).

■ Use the number of the issue in the year – 1, 2, 3 and 4

■ Keep it as it is

As you can see from the pie-chart on the right – more than half (60 percent) of the readers that voted selected the option to use the name of the month when the magazine is mailed to you. We are going to follow your wish and starting in 2010 we will have March, June, September and December issues.

January	February	March	April	May	June
July	August	September	October	November	December

The months of the year

After we resolved the issue with the use of the months, we would like to ask you about the content of the magazine for year 2010. Since the goal of PAC World is to provide our industry with a forum for discussions, we need to hear from you what four topics we should have as the focus of the magazine next year. Just keep in mind that this year the center of attention of the issues of the magazine is as follows:

■ Winter 2009 – IED and system testing

■ Spring 2009 – Distribution protection

■ Summer 2009 – IEC 61850 applications and benefits

■ Autumn 2009 – Wide Area Protection

Use this opportunity to make sure that what is of interest to you will be addressed by industry experts in 2010. ■

■ electronicAmericas 2009
1 – 5 June 2009
São Paulo, Brazil

■ 2009 IEEE-IAS/PCA Cement Industry Conference
29 May - 05 June 2009
Palm Springs, CA, USA

■ 7th International Exhibition on Electric Power Equipment and Technology
8 – 10 July 2009
Shanghai, China

■ CIRED Prague 2009
8-11 June 2009
Prague, Czech Republic

■ South East Electrical Exchange Annual Conference & Trade Show
June 10-12 2009
Atlanta, GA, USA

■ Reunion de Verano de Potencia RVP - IEEE 2009
July 5-11, 2009
Acapulco, Mexico

■ Power & Energy Society 2009 General Meeting
26-30 July 2009
Calgary, Alberta, Canada

■ Joint CIGRE PES Integration of Wide-Scale Renewable Resources into the Power Delivery System Symposium
July 29-31 2009
Calgary, Alberta, Canada
